PROJECTS

Learning Management System + Ecommerce | CAITD | [LINK](#)

APR 2025 - DEC 2025

- **Tech Stack** : HTML, CSS, BOOSTRAP, JAVASCRIPT, LARAVEL, BLADE, MYSQL
- **Story** : This project is part of my thesis work at Norton University. It is a full-stack website that I have independently developed using Laravel for the backend and Laravel Blade as the front-end framework. The website serves as a learning management system and also facilitates the sale of digital products, such as short courses, for students of CAITD.

Game | TicTacToe | [LINK](#)**NOV 2025 - DEC 2025**

- **Tech Stack** : HTML, CSS, BOOTSTRAP, JAVASCRIPT, REACTJS
- **Story** : A project of a Tic-Tac-Toe (X | O) game, independently developed by me using ReactJS, with no page refreshing required.

Portfolio | RADODEV | [LINK](#)**MAR 2025 - JUN 2025**

- **Tech Stack** : HTML, CSS, BOOTSTRAP, JAVASCRIPT, IARAVEL, BLADE, MYSQL
- **Story** : A personal portfolio full-stack website of mine.

Wedding | Viza&Laddavanh | [LINK](#)**DEC 2025 - DEC 2025**

- **Tech Stack** : HTML, CSS, BOOTSTRAP, JAVASCRIPT
- **Story** : A static pre-wedding website invitation created for my sister's friend in celebration of her wedding.

Movie | MERRG | [LINK](#)**AUG 2025 - AUG 2025**

- **Tech Stack** : HTML, CSS, BOOTSTRAP, JAVASCRIPT
- **Story** : This is a project I completed as part of my frontend course, which I had learnt at the ICT Professional Training Center.

Calculator | RICR | [LINK](#)**DEC 2025 - DEC 2025**

- **Tech Stack** : HTML, CSS, BOOTSTRAP, JAVASCRIPT, REACTJS
- **Story** : This project is an easy-to-use tool that simplifies tracking your investments. Just input details like investment amount, interest rate, and duration. It quickly shows results of the profit you get every years.

Form | RRA | [LINK](#)**DEC 2025 - DEC 2025**

- **Tech Stack** : HTML, TAILWIND, JAVASCRIPT, REACTJS,
- **Story** : This project is a basic login form that validates user input. If the input is invalid, it will be highlighted in red using Tailwind CSS styling.

Count down game | [LINK](#)**DEC 2025 - DEC 2025**

- **Tech Stack** : HTML, CSS, BOOTSTRAP, JAVASCRIPT, REACTJS,
- **Story** : A game where the user starts a timer, completes a task, and stops the timer before it runs out. If the user stops the timer too late, they lose. If they stop it in time, they win.
